

Kristen Canfield

Tax Program Manager
Indurante & Associates, Inc.

Kristen Canfield is the Tax Program Manager for Indurante & Associates, Inc., the leading provider of rail car property tax services for owned and leased private rail car fleets. As early as 2001, when she started her career as an office clerk for Indurante, Kristen realized how much paperwork was involved in the rail car tax compliance arena and had ideas on ways to streamline, reduce, and organize the business. Through the years her skill and job responsibilities evolved providing her training and knowledge of both the analytic and executable work involved in handling this type of tax.

In 2020 the opportunity presented itself to work on developing an application to do just that! Kristen is a part of the team that worked with developers to create Railmarx, a proprietary database system for private rail car fleets. A new application enhanced efficiency and required a wholesale change to reporting processes and filing procedures. Kristen helped write and implement the new processes and supervised the execution. She continues to work with developers on changes to the state tax forms and reporting documents to ensure accurate and timely filing.

During the COVID pandemic the need for Indurante to issue payments on behalf of their clients became essential and the Indurante payment service expanded. Kristen oversees the accounts, funds, and payments on behalf of their clients, as well as accumulating mileage data for state tax reporting. She also assists with the review and completion of tax returns for over 30 states. Currently, with over 20 years' experience in the property tax specialty area, Kristen is a recognized leader among peers and customers.

Kristen earned her bachelor's degree from the University of Nevada, Reno. Kristen is a part-time volunteer helping with various music programs in Southern Nevada with office work and fundraising. In the summer downtime, she loves to road-trip with her family often to mountain locations or anywhere with whitewater rafting.
